It's SMOOTHIE Time!

With the Oster In2itive Blender/Food Processor

Easy to prepare, nourishing, and deliciously blended fruit drinks.
Smoothies are the perfect beverage for our fast-paced lives.

Tips: Buy fruit, cut fruit, blend fruit. It is that simple. The average Smoothie takes 12 minutes or less to prepare. For the best Smoothies, use fresh fruit that is frozen. (The results are thicker and colder without diluting the taste of the fruit with the addition of ice.) Peel, chop, or dice before freezing and just break off the amount you need and immediately return the rest of the frozen fruit to the freezer.

Store fresh fruit in FridgeSmart™ and frozen fruit in FreezeSmart™.

**Add ingredients to the blender beginning with the liquids and ending with solids.
Start with the low speed to chop and then finish on high speed to blend completely.**

- Tequila is the distillate of the Agave plant. It is usually marketed at 80% proof. Use a good tequila in your margaritas. It does make a difference. Good brands include: Cuervo, Arandas, and any other personal favorites you find.
- In bar recipes, a scoop of ice equals 1 cup.
- Always measure carefully to get the best results.
- Use shaved ice in regular blenders. It cuts down your time, and is easier on your blender.
- Use aged ice...that is, ice that has been frozen for awhile. This prevents drinks from becoming watery fast.

Matador

1 oz. Tequila
2 oz. Pineapple Juice
Juice of ½ a lime

Shake well with shaved ice.

To make a Maria Theresa:
substitute the pineapple juice for
½ oz. of cranberry juice.
