

Making A Dating Basket

Dating Baskets are unique and individual. They are easy to carry and are decorated with a creative touch to attract attention and filled with products to entice more people to date parties in the next 1-2 weeks.

The idea: Create a party basket, pick it up, and date more parties!

Here's how it works:

- ❖ Purchase a large handled basket.
- ❖ Use any stock that you have at home or purchase several Tupperware sets and break them apart so you have dozens of pieces of product (cereal bowls, tumblers, large gadgets, snack cups, midgets, etc.)
- ❖ Pick up decorative items at Michael's, WalMart, etc. For example, ribbon, bows, silk flowers, etc. These items will be used to decorate your basket.
- ❖ How to use the dating basket: Carry it to every party! At the end of your demo, hand the basket to the closest guest. Then, thank the Host for having the party and say "Mary has done such a great job tonight! She has set her sights on our Host Gift Special and needs your help! When you date your own "party experience" in the next two weeks, you can select any product from my gift basket as an extra Thank You! AND, if you date within the next 5 days or choose to have a daytime party experience, you can select TWO gifts from the basket!"

Variations:

- ❖ Buy $1\frac{1}{4}$ yard of seasonal fabric and line your basket. Tuck matching fluffs of fabric in and around the products. It will look great and attract more attention.
- ❖ Put a few items in individual boxes and wrap in pretty paper. Some may love a "surprise gift" for dating.

Have fun making these great dating baskets. They work!!
