

Go Green Demo

Do your research and select your products! Here's what I've come up with!
*Set the stage... *Greet the guests...

How can we Go Green? Follow the 3 R's Recycle, Reuse, Reduce

Mini-Trash Can Demo

Ask...

Do you ever throw away a baggy/sandwich bag (put in trash can)...*an environmental research group stated a student of 17 years throws away 3,400 baggies!*

Do you ever throw away aluminum foil (put in trash can)...*foil is costly and you forget what you wrapped.*

Saran Wrap...cling wrap...(put in trash can)...*it's expensive too and it clings when you don't want it to...doesn't keep airtight, liquid tight and you can't stack*

Every time you use any of these products, you are throwing money into the garbage can! Pull out \$3-\$5 out of your trash can. Think how much money you'd save if you didn't keep buying baggies, foil, cling wrap and paper towels!

Remember the reuse! Reduce! Recycle! Don't buy anything you use once.

Tupperware is a wrapper **you buy once and use again and again. Every time you and your friends use Tupperware you are saving dollars!**

See how you can Save the Green, Go Green and Make the Green with Tupperware!

Catalog Demo with Facts!

How much are you spending on lunch?

Typical American Lunch \$4.06/day (\$723/yr) vs. Waste free Lunch \$2.65/day (\$477/yr): *Estimated Annual Savings: \$250!*

More Facts: Bottled water 3 forms...mineral spring & purified... Of the 14 billion water bottles sold in US in 2002 – 90% ended up in the trash! Some states considering banning!

On the Go Green Set
