

Heat 'N Serve Cake Recipe

Ingredients:

1 box cake mix, any flavor
12 oz (1 can or 1 ½ cups) soda pop

Mix cake mix and pop together in Thatsa bowl with the Silicone spatula until the lumps disappear. Pour into the 6 ¼ cup round or 8 cup square round Heat 'N Serve container and put the seal on. Place in microwave oven for 7 – 12 minutes depending on your microwave (May want it on 80% power too). The cake is done when it is a little sticky on top and is pulling away from the sides of the dish. When finished, dump onto a plate and let cool. Great with whip cream and fruit.

Some great combinations: White cake and diet 7-up
Strawberry cake and 7-up. White cake and cream soda or redpop.
Chocolate cake and coke. Chocolate cake and cherry Pepsi. Serve
