

Going “Green” and Saving “Green”

Did you know....

- Tupperware is the original “green” product.
- Tupperware is the wrapper you never throw away.
- Tupperware offers the lifetime warranty - just like 60 years ago.
- you can get your favorite Tupperware products FREE.

Keep beverages hot or cold - while you’re on the go! Perfect for everyone in the family. Stop filling the landfill with those disposable bottles!

Average Savings = \$300/year per person

Using the microwave to cook your meals, saves electricity and time. Prepare appetizers, entire meals and desserts with you microwave.

Average savings = endless.

- ★ Cooking at home vs going to a Restaurant for dinner saves approximately \$70 per meal for a family of 4.
- ★ Microwave cooking requires less electricity compared to cooking in the oven or stovetop.
- ★ Busy lives require pre-planning family meals. Freeze ahead and reheat all in the same container!

Tupperware products for storing were good enough for your mom and grandma; why not use them in your kitchen too?

When you pack your lunch – you control the portions, the spices and the calories. Can’t go wrong with eating healthier for yourself and the family. Consider these savings your next raise.

Average adult savings = \$40/week
Average school child savings = \$10/week
Average savings for baggies, paper bags, plastic wrap, foils etc = \$15/month
